

Sealock Junior

**Peace of Mind
at a Fraction of
the Cost of Heavy
Locking Bars!**

*Portable device.
Mounts in seconds
without tools.*

*Dual function.
Provides both a sealing
and locking function
simultaneously.*

*Removal requires
two separate cuts.*

*Exceeds all ISO/PAS
17712 & ASTM "F"
1157 Standards.
C-TPAT compliant.*

- 100% steel braided aircraft cable construction.
- Braided cable frays when cut, making re-welding impossible.
- Two components: Aircraft cable and plastic-coated insert.
- Alpha-numerically sequenced.
- Single loop, with 1 set of numbers for security, requires two cuts to remove.
- Lock AND seal with one low cost unit.
- Unique design - Patent 7,063,362.

The Only Seal That Locks. The Only Lock That Seals™
